Title: Abnormal ventral tegmental area-anterior cingulate cortex connectivity in Parkinson's disease with depression

Authors: Luqing Wei, Xiao Hu, Yonggui Yuan, Weiguo Liu, Hong Chen

PII: S0166-4328(17)31873-9
DOI: <https://doi.org/10.1016/j.bbr.2018.03.011>
Reference: BBR 11333

To appear in: *Behavioural Brain Research*

Received date: 20-11-2017
Revised date: 20-1-2018
Accepted date: 7-3-2018

Please cite this article as: Wei L, Hu X, Yuan Y, Liu W, Chen H, Abnormal ventral tegmental area-anterior cingulate cortex connectivity in Parkinson's disease with depression, *Behavioural Brain Research* (2018), <https://doi.org/10.1016/j.bbr.2018.03.011>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Abnormal ventral tegmental area-anterior cingulate cortex
connectivity in Parkinson's disease with depression**

Highlights

- Aberrant connectivity between VTA and ACC in DPD patients
- Aberrant connectivity between SN and sensorimotor areas in DPD and NDPD patients
