Title: Understanding the Pathophysiology of Depression:
From Monoamines to the Neurogenesis Hypothesis model -
are we there yet?

Authors: Emmanuel Jesulola, Peter Micalos, Ian J. Baguley

PII: S0166-4328(17)31852-1
DOI: <https://doi.org/10.1016/j.bbr.2017.12.025>
Reference: BBR 11225

To appear in: *Behavioural Brain Research*

Received date: 16-11-2017
Revised date: 19-12-2017
Accepted date: 22-12-2017

Please cite this article as: Jesulola E, Micalos P, Baguley IJ, Understanding the Pathophysiology of Depression: From Monoamines to the Neurogenesis Hypothesis model - are we there yet?, *Behavioural Brain Research* (2010), <https://doi.org/10.1016/j.bbr.2017.12.025>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Understanding the Pathophysiology of Depression: From Monoamines to the Neurogenesis Hypothesis model - are we there yet?

Authors:

*Dr Emmanuel Jesulola^a MBBS, MSc, PhD

Dr Peter Micalos^a M.Ed, PhD

A/Prof Ian J Baguley^b MBBS, PhD
