Title: US Alone Trials Presented During Acquisition Do Not Disrupt Classical Eyeblink Conditioning: Empirical and Computational Findings

Authors: M.T. Allen, C.E. Myers, D. Williams, R.J. Servatius

PII: S0166-4328(17)30804-5
DOI: <https://doi.org/10.1016/j.bbr.2017.10.017>
Reference: BBR 11137

To appear in: *Behavioural Brain Research*

Received date: 13-6-2017
Revised date: 25-9-2017
Accepted date: 17-10-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

US Alone Trials Presented During Acquisition Do Not Disrupt Classical Eyeblink Conditioning:
Empirical and Computational Findings
