

## Accepted Manuscript

From Perception to Ingestion; the role of sensory properties in energy selection, eating behaviour and food intake

Ciarán G. Forde

PII: S0950-3293(18)30058-2

DOI: <https://doi.org/10.1016/j.foodqual.2018.01.010>

Reference: FQAP 3454

To appear in: *Food Quality and Preference*

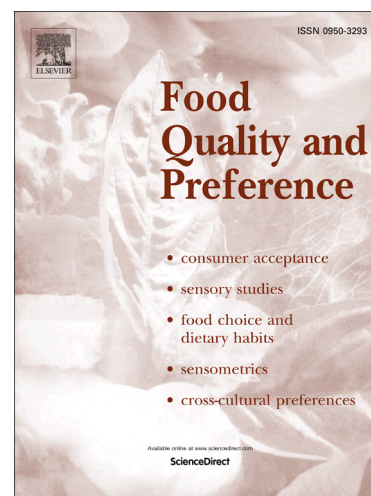

Received Date: 6 October 2017

Revised Date: 28 November 2017

Accepted Date: 18 January 2018

Please cite this article as: Forde, C.G., From Perception to Ingestion; the role of sensory properties in energy selection, eating behaviour and food intake, *Food Quality and Preference* (2018), doi: <https://doi.org/10.1016/j.foodqual.2018.01.010>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**From Perception to Ingestion; the role of sensory properties in energy selection, eating behaviour and food intake**
