

## Author's Accepted Manuscript

Differential effects of diet composition and timing of feeding behavior on rat brown adipose tissue and skeletal muscle peripheral clocks

Paul de Goede, Satish Sen, Johanneke E Oosterman, Ewout Foppen, Remi Jansen, Susanne E la Fleur, Etienne Challet, Andries Kalsbeek

PII: S2451-9944(17)30013-5  
DOI: <http://dx.doi.org/10.1016/j.nbscr.2017.09.002>  
Reference: NBSCR21

To appear in: *Neurobiology of Sleep and Circadian Rhythms*

Received date: 3 July 2017  
Revised date: 6 September 2017  
Accepted date: 11 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Differential effects of diet composition and timing of feeding behavior on rat  
Brown adipose tissue and Skeletal muscle peripheral clocks.
