Research report

Failure to reactivate salient episodic information during indirect and direct tests of memory retrieval

Mason H. Price, Jeffrey D. Johnson

PII: S0006-8993(18)30364-0

DOI: <https://doi.org/10.1016/j.brainres.2018.06.031>

Reference: BRES 45863

To appear in: *Brain Research*

Received Date: 15 October 2017

Revised Date: 18 May 2018

Accepted Date: 28 June 2018

Please cite this article as: M.H. Price, J.D. Johnson, Failure to reactivate salient episodic information during indirect and direct tests of memory retrieval, *Brain Research* (2018), doi: <https://doi.org/10.1016/j.brainres.2018.06.031>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Failure to reactivate salient episodic information during indirect and direct tests of memory retrieval
