Research report

Characterization of dural afferent neurons innervating cranial blood vessels within the dura in rats

Michiko Nakamura, Il-Sung Jang

PII: S0006-8993(18)30335-4

DOI: <https://doi.org/10.1016/j.brainres.2018.06.007>

Reference: BRES 45839

To appear in: *Brain Research*

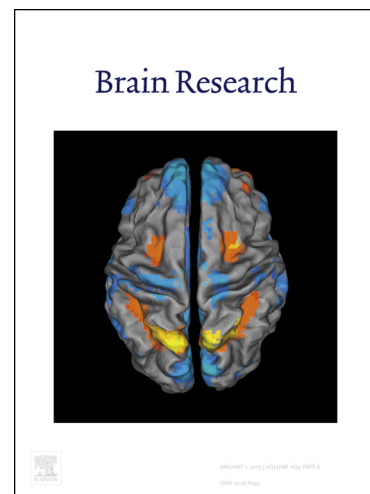

Received Date: 13 February 2018

Revised Date: 5 June 2018

Accepted Date: 7 June 2018

Please cite this article as: M. Nakamura, I-S. Jang, Characterization of dural afferent neurons innervating cranial blood vessels within the dura in rats, *Brain Research* (2018), doi: <https://doi.org/10.1016/j.brainres.2018.06.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Characterization of dural afferent neurons innervating cranial blood vessels within the dura in rats

Michiko Nakamura^{1,2} and Il-Sung Jang^{1,2}

¹Department of Pharmacology, School of Dentistry, Kyungpook National University, Daegu 41940, Republic of Korea

²Brain Science & Engineering Institute, Kyungpook National University, Daegu 41940, Republic of Korea

Abbreviated title: Properties of dural afferent neurons

Number of pages: 38 pages for text, 8 main figures, 3 supplementary figures, and 1 supplementary table

Number of words: 245 for Abstract, 530 for Introduction, and 1645 for Discussion

Please send all correspondence to:

Il-Sung Jang, PhD, Professor
