Research report

Inhibition of glycogen synthase kinase-3 reduces extension of the axonal leading process by destabilizing microtubules in cerebellar granule neurons

Yoshihiro Inami, Mitsuru Omura, Kenta Kubota, Yoshiyuki Konishi

PII: S0006-8993(18)30197-5

DOI: <https://doi.org/10.1016/j.brainres.2018.04.011>

Reference: BRES 45751

To appear in: *Brain Research*

Received Date: 18 December 2017

Revised Date: 23 March 2018

Accepted Date: 9 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Inhibition of glycogen synthase kinase-3 reduces extension of the axonal leading process by destabilizing microtubules in cerebellar granule neurons**
