Research report

Baicalin and ginsenoside Rb1 promote the proliferation and differentiation of neural stem cells in Alzheimer's disease model rats

Jiwei Zhao, Shanshan Lu, Hongli Yu, Shurong Duan, Jingkun Zhao

PII: S0006-8993(17)30443-2

DOI: <https://doi.org/10.1016/j.brainres.2017.10.003>

Reference: BRES 45514

To appear in: *Brain Research*

Received Date: 25 May 2017

Revised Date: 30 September 2017

Accepted Date: 3 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Baicalin and ginsenoside Rb1 promote the proliferation and differentiation of neural stem cells in Alzheimer's disease model rats

Running title: Effect of Baicalin and ginsenoside Rb1 on brain injury
