## Research Article

CEPO-Fc (an EPO derivative) protects hippocampus against A $\beta$ -induced memory deterioration: A behavioral and molecular study in a rat model of A $\beta$  toxicity

Etrat Hooshmandi, Fereshteh Motamedi, Maryam Moosavi, Hermann Katinger, Zahra Zakeri, Jalal Zaringhalam, Amirhossein Maghsoudi, Rasoul Ghasemi, Nader Maghsoudi

PII: S0306-4522(18)30539-6  
DOI: <https://doi.org/10.1016/j.neuroscience.2018.08.001>  
Reference: NSC 18594

To appear in: *Neuroscience*

Received Date: 18 April 2018  
Accepted Date: 2 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
