The effects of N-terminal mutations on β -amyloid peptide aggregation and toxicity

B.V. Foroutanpay, J. Kumar, S.G. Kang, N. Danaei, D. Westaway, V.L. Sim, S. Kar

PII: S0306-4522(18)30205-7

DOI: <https://doi.org/10.1016/j.neuroscience.2018.03.014>

Reference: NSC 18352

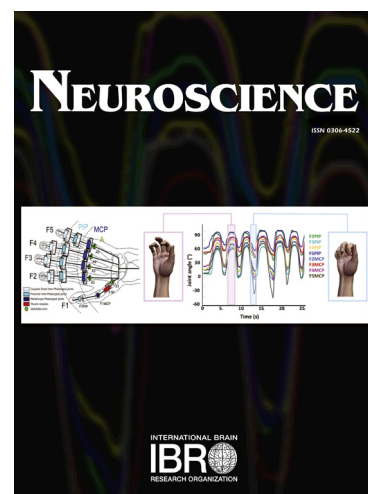

To appear in: *Neuroscience*

Received Date: 24 July 2017

Accepted Date: 12 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The effects of N-terminal mutations on β -amyloid peptide aggregation and toxicity
