Information processing across behavioral states: modes of operation and population dynamics in rodent sensory cortex

Mohammad Mahdi Sabri, Ehsan Arabzadeh

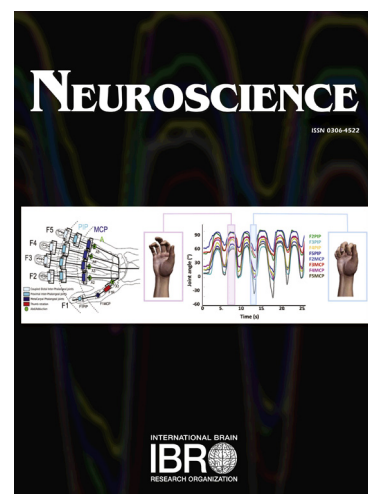

PII: S0306-4522(17)30660-7
DOI: <http://dx.doi.org/10.1016/j.neuroscience.2017.09.016>
Reference: NSC 18024

To appear in: *Neuroscience*

Received Date: 4 April 2017
Revised Date: 8 September 2017
Accepted Date: 10 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Information processing across behavioral states: modes of operation and population dynamics in rodent sensory cortex
