Title: Modulation of neural regulators of energy homeostasis, and of inflammation, in the pups of mice exposed to e-cigarettes

Authors: Hui Chen, Gerard Li, Yik Lung Chan, Tara Nguyen, David van Reyk, Sonia Saad, Brian G Oliver

PII: S0304-3940(18)30463-4
DOI: <https://doi.org/10.1016/j.neulet.2018.07.001>
Reference: NSL 33691

To appear in: *Neuroscience Letters*

Received date: 18-5-2018
Revised date: 20-6-2018
Accepted date: 2-7-2018

Highlights

- Maternal exposure to nicotine-free e-vapor disturbs brain metabolic markers
- Maternal tobacco smoke exposure disturbs brain metabolic regulators
- Nicotine-containing e-cigarette replacement reverses the effect of maternal smoking
- Increased oxidative stress may be a mechanism underlies these perturbations
