Title: Loss of calretinin and parvalbumin positive interneurons in the hippocampal CA1 of aged Alzheimer's disease mice

Authors: Fatima Zallo, Emanuela Gardenal, Alexei Verkhratsky, José Julio Rodríguez

PII: S0304-3940(18)30362-8
DOI: <https://doi.org/10.1016/j.neulet.2018.05.027>
Reference: NSL 33606

To appear in: *Neuroscience Letters*

Received date: 28-12-2017
Revised date: 30-4-2018
Accepted date: 17-5-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Loss of calretinin and parvalbumin positive interneurons in the hippocampal CA1 of aged Alzheimer's disease mice

#Equally contributed.

Highlights:

- Specific vulnerability of calcium binding proteins in Alzheimer's disease
- Increased hippocampal parvalbumin damage in Alzheimer's disease
- Alzheimer associated neurotoxicity is linked to calcium binding proteins
