Title: White matter tractography of the neural network for speech-motor control in children who stutter

Authors: Ehsan Misaghi, Zhaoran Zhang, Vincent L. Gracco, Luc F. De Nil, Deryk S. Beal

PII: S0304-3940(18)30009-0
DOI: <https://doi.org/10.1016/j.neulet.2018.01.009>
Reference: NSL 33343

To appear in: *Neuroscience Letters*

Received date: 22-9-2017
Revised date: 15-12-2017
Accepted date: 4-1-2018

Highlights

- Seven white matter tracts were assessed using diffusion tensor tractography.
- CWS had higher FA and AD in the right relative to the left FAT.
