Bone Morphogenetic Protein 4 Antagonizes Hair Cell Regeneration in the Avian Auditory Epithelium

Rebecca M. Lewis, Jesse J. Keller, Liangcai Wan, Jennifer S. Stone

PII: S0378-5955(17)30531-2

DOI: [10.1016/j.heares.2018.04.008](https://doi.org/10.1016/j.heares.2018.04.008)

Reference: HEARES 7543

To appear in: *Hearing Research*

Received Date: 4 November 2017

Revised Date: 11 March 2018

Accepted Date: 16 April 2018

Please cite this article as: Lewis, R.M., Keller, J.J., Wan, L., Stone, J.S., Bone Morphogenetic Protein 4 Antagonizes Hair Cell Regeneration in the Avian Auditory Epithelium, *Hearing Research* (2018), doi: 10.1016/j.heares.2018.04.008.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Bone Morphogenetic Protein 4 Antagonizes Hair Cell Regeneration in
the Avian Auditory Epithelium**

Rebecca M. Lewis^{1,2}, Jesse J. Keller^{1,3}, Liangcai Wan^{1,4}, and Jennifer S. Stone¹

ACKNOWLEDGMENTS

The authors thank Edwin Rubel, Julie Arenberg, and Richard Folsom for helpful discussions throughout the duration of the study. The authors extend their thanks and gratitude to Jialin Shang, Robin Gibson, and Irmna Haq for assistance with experiments. We also thank Glen MacDonald and Brandon Warren for help with digital imaging and data storage. We are grateful to David Raible, Lavinia Sheets, and Kirupa Suthakar for helpful comments prior to manuscript submission. This study was supported by the National Institutes of Health (F30 grant DC012228, RML; P30 grant DC04661, Edwin Rubel, PI; and R01 grant DC03696, JSS), the American Academy of Audiology (RML); the Howard Hughes Medical Institute (JJK); the Whitcraft Family (JSS); and the Hearing Restoration Project/Hearing Health Foundation (JSS).
