This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title: Leadership, governance and partnerships are essential One Health competencies**

Craig Stephen

University of Saskatchewan. 52 Campus Drive, Saskatoon, ca

E-mail: cstephen@cwhc-rscsf.ca

Opinion Article

Word Count

**Key words:** One Health, competencies, leadership, governance, development

### Highlights

- Cross-disciplinary technical proficiency is necessary but insufficient for One Health
- One Health needs skills, processes and institutions that enable co-management and co-delivery
- Leadership, governance and partnership are essential but overlooked competencies
