Genomic and metatranscriptomic analyses of *Weissella koreensis* reveal its metabolic and fermentative features during kimchi fermentation

Sang Eun Jeong, Byung Hee Chun, Kyung Hyun Kim, Dongbin Park, Seong Woon Roh, Se Hee Lee, Che Ok Jeon

PII: S0740-0020(18)30001-7

DOI: [10.1016/j.fm.2018.04.003](https://doi.org/10.1016/j.fm.2018.04.003)

Reference: YFMIC 2991

To appear in: *Food Microbiology*

Received Date: 1 January 2018

Revised Date: 2 March 2018

Accepted Date: 9 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
