This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Highlights**

2

3 FSMA regulation and the EC's guidance document are relevant preventative approaches

4

5 FSMA modified the unit used to estimate FIB concentration from MPN to CFU

6

7 Growers need more alternatives for treatment of agricultural water

8

9 Conferences on food safety need to have a space to discuss practical issues of concern

10
