Orthogonal typing methods identify genetic diversity among Belgian *Campylobacter jejuni* strains isolated over a decade from poultry and cases of sporadic human illness

Mohamed Elhadidy, Hector Arguello, Avelino Álvarez-Ordóñez, William G. Miller, Alexandra Duarte, Delphine Martiny, Marie Hallin, Olivier Vandenberg, Katelijne Dierick, Nadine Botteldoorn

PII: S0168-1605(18)30145-4

DOI: [doi:10.1016/j.ijfoodmicro.2018.04.004](https://doi.org/10.1016/j.ijfoodmicro.2018.04.004)

Reference: FOOD 7864

To appear in: *International Journal of Food Microbiology*

Received date: 24 August 2017

Revised date: 8 February 2018

Accepted date: 2 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Orthogonal typing methods identify genetic diversity among Belgian *Campylobacter jejuni* strains isolated over a decade from poultry and cases of sporadic human illness
