Declaration of interest: None

Submission declaration: This article has been adapted from parts of an academic thesis previously published by Kevin B. White in July 2017 through the University of Saskatchewan eCommons (available at: <https://ecommons.usask.ca/handle/10388/7971>). Aside from this, the article has not been previously published elsewhere, is not under consideration for publication elsewhere, is approved by both authors and all responsible authorities where the work was carried out, and if accepted, will not be published elsewhere including electronically in the same form, in English or in any other language, without the written consent of the copyright-holder.

Funding disclosure: This research was funded by the University of Saskatchewan Toxicology Centre and Toxicology Graduate Program. The funding sources had no involvement in the design, collection, analysis, or interpretation of data in this report, nor in the writing or the decision to submit it for publication.
