

Accepted Manuscript

Considerations on the use of equilibrium models for the characterisation of HOC-microplastic interactions in vector studies

Jorge F.M. Velez, Yvonne Shashoua, Kristian Syberg, Farhan R. Khan

PII: S0045-6535(18)31277-3

DOI: 10.1016/j.chemosphere.2018.07.020

Reference: CHEM 21734

To appear in: *Chemosphere*

Received Date: 19 April 2018

Accepted Date: 05 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Considerations on the use of equilibrium models for the characterisation of HOC-microplastic interactions in vector studies
