Predicted no-effect concentration (PNEC) and assessment of risk for the fungicide, triadimefon based on reproductive fitness of aquatic organisms

Na Liu, Xiaowei Jin, Junying Zhou, Yeyao Wang, Qi Yang, Fengchang Wu, John P. Giesy, Andrew C. Johnson

PII: S0045-6535(18)30942-1

DOI: [10.1016/j.chemosphere.2018.05.093](https://doi.org/10.1016/j.chemosphere.2018.05.093)

Reference: CHEM 21425

To appear in: *ECSN*

Received Date: 4 January 2018

Revised Date: 9 May 2018

Accepted Date: 16 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
