Progress and prospect of adsorptive removal of heavy metal ions from aqueous solution using metal–organic frameworks: a review of studies from the last decade

Jia Wen, Ying Fang, Guangming Zeng

PII: S0045-6535(18)30455-7

DOI: 10.1016/j.chemosphere.2018.03.047

Reference: CHEM 20991

To appear in: *Chemosphere*

Received Date: 06 September 2017

Revised Date: 27 February 2018

Accepted Date: 05 March 2018

Please cite this article as: Jia Wen, Ying Fang, Guangming Zeng, Progress and prospect of adsorptive removal of heavy metal ions from aqueous solution using metal–organic frameworks: a review of studies from the last decade, *Chemosphere* (2018), doi: 10.1016/j.chemosphere.2018.03.047

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
