Effect of perfluorooctane sulphonate-induced Kupffer cell activation on hepatocyte proliferation through the NF- $\kappa$ B/TNF- $\alpha$ /IL-6-dependent pathway

Rui Han, Fang Zhang, Chong Wan, Limin Liu, Qiang Zhong, Wenjun Ding

PII: S0045-6535(18)30349-7

DOI: [10.1016/j.chemosphere.2018.02.137](https://doi.org/10.1016/j.chemosphere.2018.02.137)

Reference: CHEM 20895

To appear in: *ECSN*

Received Date: 22 August 2017

Revised Date: 21 February 2018

Accepted Date: 22 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1        **Effect of perfluorooctane sulphonate-induced Kupffer cell activation on**  
2        **hepatocyte proliferation through the NF- $\kappa$ B/TNF- $\alpha$ /IL-6-dependent pathway**
