Method development for the analysis of ionophore antimicrobials in dairy manure to assess removal within a membrane-based treatment system

Jerod J. Hurst, Josh S. Wallace, Diana S. Aga

PII: S0045-6535(18)30034-1

DOI: [10.1016/j.chemosphere.2018.01.028](https://doi.org/10.1016/j.chemosphere.2018.01.028)

Reference: CHEM 20609

To appear in: *ECSN*

Received Date: 16 November 2017

Revised Date: 3 January 2018

Accepted Date: 7 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Method Development for the Analysis of Ionophore Antimicrobials in Dairy Manure to Assess Removal within a Membrane-Based Treatment System
