Removal of chromium (VI) ions from aqueous solutions using amine-impregnated TiO₂ nanoparticles modified cellulose acetate membranes

Kibrom Alebel Gebru, Chandan Das

PII: S0045-6535(17)31692-2

DOI: [10.1016/j.chemosphere.2017.10.107](https://doi.org/10.1016/j.chemosphere.2017.10.107)

Reference: CHEM 20129

To appear in: *ECSN*

Received Date: 7 January 2017

Revised Date: 5 October 2017

Accepted Date: 19 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
