Effect of pore structure on the removal of clofibrac acid by magnetic anion exchange resin

Liang Tan, Chendong Shuang, Yunshu Wang, Jun Wang, Yihong Su, Aimin Li

PII: S0045-6535(17)31574-6

DOI: [10.1016/j.chemosphere.2017.10.005](https://doi.org/10.1016/j.chemosphere.2017.10.005)

Reference: CHEM 20027

To appear in: *ECSN*

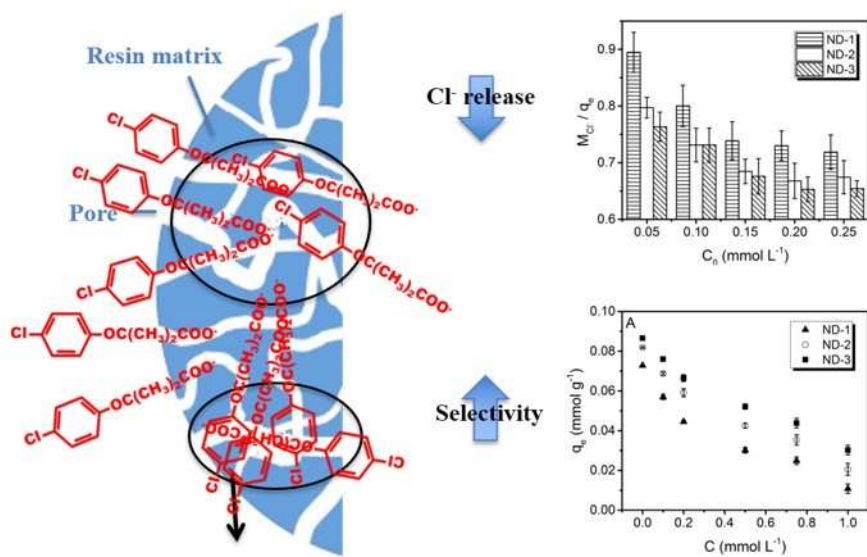

Received Date: 18 February 2017

Revised Date: 14 June 2017

Accepted Date: 1 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Contribution of non-electrostatic interaction on CA adsorption into pores
