Influence of urbanisation characteristics on the variability of particle-bound heavy metals build-up: A comparative study between China and Australia

Buddhi Wijesiri, An Liu, Chandima Gunawardana, Nian Hong, Panfeng Zhu, Yuntao Guan, Ashantha Goonetilleke

PII: S0269-7491(18)31426-X

DOI: [10.1016/j.envpol.2018.07.123](https://doi.org/10.1016/j.envpol.2018.07.123)

Reference: ENPO 11427

To appear in: *Environmental Pollution*

Received Date: 2 April 2018

Revised Date: 2 July 2018

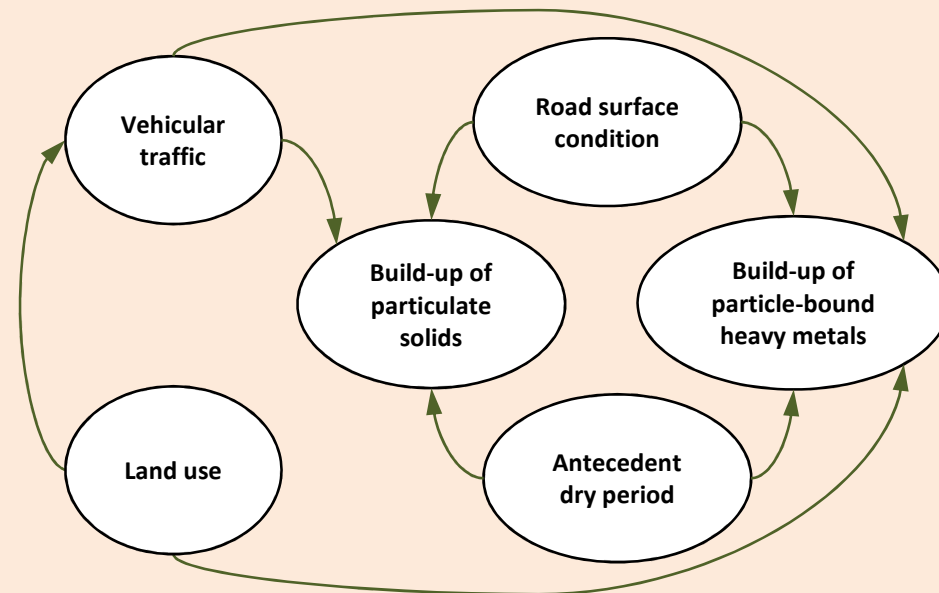

Accepted Date: 27 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Bayesian Network for modelling heavy metal build-up
