Establishing a method to assess comprehensive effect of gradient variation human health risk to metal speciation in groundwater

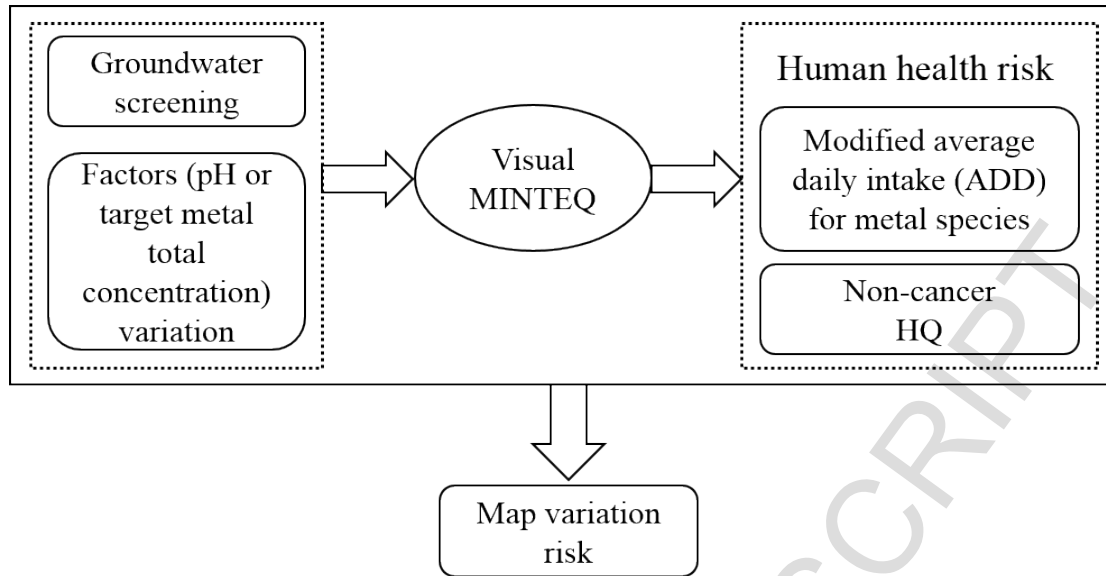

Yimei Zhang, Jie Chen, Liqun Wang, Yalong Zhao, Ping Ou, WeiLin Shi

PII: S0269-7491(18)30057-5  
DOI: 10.1016/j.envpol.2018.06.023  
Reference: ENPO 11218  
To appear in: *Environmental Pollution*  
Received Date: 05 January 2018  
Accepted Date: 06 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**TOC/Abstract Art** Flowchart of the variation health risk assessment for metal species framework.
