

# Accepted Manuscript

A statistical experimental design to remove sulfate by crystallization in a fluidized-bed reactor

Mark Daniel G. de Luna, Diana Pearl M. Rance, Luzvisminda M. Bellotindos, Ming-Chun Lu

PII: S2468-2039(16)30075-9

DOI: [10.1016/j.serj.2016.10.004](https://doi.org/10.1016/j.serj.2016.10.004)

Reference: SERJ 61

To appear in: *Sustainable Environment Research*

Received Date: 29 June 2016

Revised Date: 26 August 2016

Accepted Date: 19 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
