Accepted Manuscript

Zinc isotopes as tracers of anthropogenic sources and biogeochemical processes in contaminated mangroves

Daniel F. Araújo, Wilson Machado, Dominik Weiss, Daniel S. Mulholland, Jeremie Garnier, Carlos E. Souto-Oliveira, Marly Babinski

PII: \$0883-2927(18)30112-4

DOI: 10.1016/j.apgeochem.2018.05.008

Reference: AG 4085

To appear in: Applied Geochemistry

Received Date: 26 September 2017

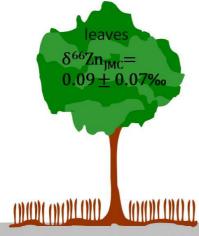

Revised Date: 9 April 2018 Accepted Date: 10 May 2018

Please cite this article as: Araújo, D.F., Machado, W., Weiss, D., Mulholland, D.S., Garnier, J., Souto-Oliveira, C.E., Babinski, M., Zinc isotopes as tracers of anthropogenic sources and biogeochemical processes in contaminated mangroves, *Applied Geochemistry* (2018), doi: 10.1016/j.apgeochem.2018.05.008.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

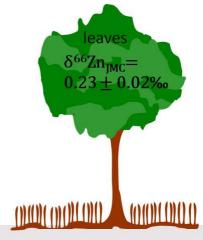

ACCEPTED MANUSCRIPT

 $\delta^{66} Zn_{\text{JMC}} {=}\, 0.82 \pm 0.04\%$

High contaminated sediments

 $\delta^{66} Zn_{\text{JMC}} {=}\, 0.47 \pm 0.04\%$

Low-contaminated sediment
