

# Accepted Manuscript

Geochemistry of tungsten and molybdenum during freshwater transport and estuarine mixing

Susanne Bauer, Sarah Conrad, Johan Ingri

PII: S0883-2927(18)30075-1

DOI: [10.1016/j.apgeochem.2018.03.015](https://doi.org/10.1016/j.apgeochem.2018.03.015)

Reference: AG 4063

To appear in: *Applied Geochemistry*

Received Date: 6 September 2017

Revised Date: 27 March 2018

Accepted Date: 27 March 2018

Please cite this article as: Bauer, S., Conrad, S., Ingri, J., Geochemistry of tungsten and molybdenum during freshwater transport and estuarine mixing, *Applied Geochemistry* (2018), doi: 10.1016/j.apgeochem.2018.03.015.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Geochemistry of tungsten and molybdenum during freshwater transport and estuarine mixing
