Removal of hazardous hexavalent chromium from aqueous phase using zirconium oxide-immobilized alginate beads

Rahul Kumar, Sun-Joon Kim, Kang-Ho Kim, Sang-hun Lee, Hyun-Sung Park, Byong-Hun Jeon

PII: S0883-2927(16)30600-X

DOI: [10.1016/j.apgeochem.2017.04.002](https://doi.org/10.1016/j.apgeochem.2017.04.002)

Reference: AG 3859

To appear in: *Applied Geochemistry*

Received Date: 26 December 2016

Accepted Date: 6 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Removal of hazardous hexavalent chromium from aqueous phase using zirconium
oxide-immobilized alginate beads**
