

Accepted Manuscript

A numerical simulation study on the impact of smoke aerosols from Russian forest fires on the air pollution over Asia

Qingzhe Zhu, Yuzhi Liu, Rui Jia, Shan Hua, Tianbin Shao, Bing Wang

PII: S1352-2310(18)30212-7

DOI: [10.1016/j.atmosenv.2018.03.052](https://doi.org/10.1016/j.atmosenv.2018.03.052)

Reference: AEA 15922

To appear in: *Atmospheric Environment*

Received Date: 22 December 2017

Revised Date: 21 March 2018

Accepted Date: 23 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
