Accepted Manuscript

Analysis of source regions and meteorological factors for the variability of spring PM_{10} concentrations in Seoul, Korea

Jangho Lee, Kwang-Yul Kim

PII: S1352-2310(17)30852-X

DOI: 10.1016/j.atmosenv.2017.12.013

Reference: AEA 15732

To appear in: Atmospheric Environment

Received Date: 20 April 2017

Revised Date: 7 December 2017

Accepted Date: 11 December 2017

Please cite this article as: Lee, J., Kim, K.-Y., Analysis of source regions and meteorological factors for the variability of spring PM₁₀ concentrations in Seoul, Korea, *Atmospheric Environment* (2018), doi: 10.1016/j.atmosenv.2017.12.013.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
