

## Accepted Manuscript

On the theoretical aspects of improved fog detection and prediction in India

Sagnik Dey

PII: S0169-8095(17)31023-2  
DOI: doi:[10.1016/j.atmosres.2017.11.018](https://doi.org/10.1016/j.atmosres.2017.11.018)  
Reference: ATMOS 4121  
To appear in: *Atmospheric Research*  
Received date: 29 September 2017  
Revised date: 9 November 2017  
Accepted date: 12 November 2017

Please cite this article as: Sagnik Dey , On the theoretical aspects of improved fog detection and prediction in India. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Atmos(2017), doi:[10.1016/j.atmosres.2017.11.018](https://doi.org/10.1016/j.atmosres.2017.11.018)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
