

## Accepted Manuscript

Influence of internal bores on larval fish abundance and community composition

Patrick J. Phelan, John Steinbeck, Ryan K. Walter

PII: S2352-4855(17)30271-2

DOI: <https://doi.org/10.1016/j.rsma.2018.03.010>

Reference: RSMA 372

To appear in: *Regional Studies in Marine Science*

Received date: 5 September 2017

Revised date: 19 January 2018

Accepted date: 23 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
