

Accepted Manuscript

A granular activated carbon/electrochemical hybrid system for onsite treatment and reuse of blackwater

Tate W. Rogers, Tess S. Rogers, Mikayla H. Stoner, Katelyn L. Sellgren, Brendon J. Lynch, Aaron A. Forbis-Stokes, Brian R. Stoner, Brian T. Hawkins

PII: S0043-1354(18)30613-4
DOI: 10.1016/j.watres.2018.07.070
Reference: WR 13969
To appear in: *Water Research*
Received Date: 05 May 2018
Accepted Date: 28 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **A granular activated carbon/electrochemical**
2 **hybrid system for onsite treatment and reuse of**
3 **blackwater**
