Succession of bacterial and fungal communities within biofilms of a chlorinated drinking water distribution system

I. Douterelo, K.E. Fish, J.B. Boxall

PII: S0043-1354(18)30353-1

DOI: [10.1016/j.watres.2018.04.058](https://doi.org/10.1016/j.watres.2018.04.058)

Reference: WR 13755

To appear in: *Water Research*

Received Date: 14 December 2017

Revised Date: 5 April 2018

Accepted Date: 25 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fungal-Bacterial Interactions in Drinking Water Biofilms
