New insights into the formation of silver-based nanoparticles under natural and semi-natural conditions

Andreas Wimmer, Anna Kalinnik, Michael Schuster

PII: S0043-1354(18)30383-X

DOI: [10.1016/j.watres.2018.05.015](https://doi.org/10.1016/j.watres.2018.05.015)

Reference: WR 13780

To appear in: *Water Research*

Received Date: 3 February 2018

Revised Date: 9 May 2018

Accepted Date: 10 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
