

Accepted Manuscript

Metagenomic characterization of biofilter microbial communities in a full-scale drinking water treatment plant

Seungdae Oh, Frederik Hammes, Wen-Tso Liu

PII: S0043-1354(17)30888-6

DOI: [10.1016/j.watres.2017.10.054](https://doi.org/10.1016/j.watres.2017.10.054)

Reference: WR 13311

To appear in: *Water Research*

Received Date: 26 July 2017

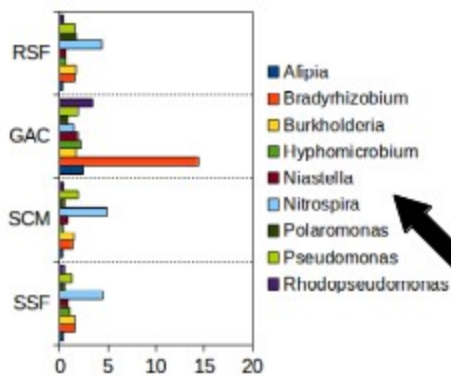

Revised Date: 25 October 2017

Accepted Date: 25 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Prokaryotic community

Community metabolism

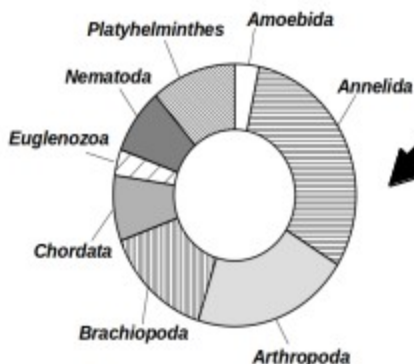

Biofilter

Influent

Effluent

Eukaryotic community

Occurrence pattern
