Effect of phenolic acids from banana root exudates on root colonization and pathogen suppressive properties of *Bacillus amyloliquefaciens* NJN-6

Jun Yuan, Yuncheng Wu, Mengli Zhao, Tao Wen, Qiwei Huang, Qirong Shen

PII: S1049-9644(18)30038-0

DOI: <https://doi.org/10.1016/j.biocontrol.2018.05.016>

Reference: YBCON 3780

To appear in: *Biological Control*

Received Date: 30 January 2018

Revised Date: 13 May 2018

Accepted Date: 23 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of phenolic acids from banana root exudates on root colonization and pathogen suppressive properties of *Bacillus amyloliquefaciens* NJN-6
