

## Accepted Manuscript

Changes in mycoparasite-*Fusarium* hosts interfaces in response to hostile environment as revealed by water contact angle and atomic force microscopy

Seon Hwa Kim, Vladimir Vujanovic

PII: S1049-9644(18)30178-6

DOI: <https://doi.org/10.1016/j.biocontrol.2018.03.013>

Reference: YBCON 3739

To appear in: *Biological Control*

Received Date: 29 August 2017

Revised Date: 5 February 2018

Accepted Date: 24 March 2018

Please cite this article as: Kim, S.H., Vujanovic, V., Changes in mycoparasite-*Fusarium* hosts interfaces in response to hostile environment as revealed by water contact angle and atomic force microscopy, *Biological Control* (2018), doi: <https://doi.org/10.1016/j.biocontrol.2018.03.013>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Changes in mycoparasite-*Fusarium* hosts interfaces in response to  
hostile environment as revealed by water contact angle and atomic force  
microscopy**
