Intraspecific variation in facultative symbiont infection among native and exotic pest populations: potential implications for biological control

Nicolas Desneux, Mark K. Asplen, Cristina M. Brady, George E. Heimpel, Keith R. Hopper, Chen Luo, Lucie Monticelli, Kerry M. Oliver, Jennifer A. White

PII: S1049-9644(17)30130-5

DOI: <http://dx.doi.org/10.1016/j.biocontrol.2017.06.007>

Reference: YBCON 3605

To appear in: *Biological Control*

Received Date: 30 January 2017

Revised Date: 25 May 2017

Accepted Date: 26 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
