Identification of potential lipid binding regions in cereal proteins and peptides with the use of bioinformatics

Rob C.A. Keller

PII: S0733-5210(17)30600-8

DOI: [10.1016/j.jcs.2018.02.006](https://doi.org/10.1016/j.jcs.2018.02.006)

Reference: YJCRS 2532

To appear in: *Journal of Cereal Science*

Received Date: 3 August 2017

Revised Date: 7 February 2018

Accepted Date: 11 February 2018

Please cite this article as: Keller, R.C.A., Identification of potential lipid binding regions in cereal proteins and peptides with the use of bioinformatics, *Journal of Cereal Science* (2018), doi: 10.1016/j.jcs.2018.02.006.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Identification of potential lipid binding regions in cereal**
2 **proteins and peptides with the use of bioinformatics.**

3 **Rob C. A. Keller**^{1,*}
