Title: Nutrient Mineralization and Organic Matter Reduction
Performance of RAS-based Sludge in Sequential
UASB-EGSB Reactors

Authors: Simon Goddek, Boris P.L. Delaide, Alyssa Joyce,
Sven Wuertz, M. Haïssam Jijakli, Amit Gross, Ep H. Eding,
Ingo Bläser, Michael Reuter, L.C. Paul Keizer, Rolf
Morgenstern, Oliver Körner, Johan Verreth, Karel J. Keesman

PII: S0144-8609(18)30056-6
DOI: <https://doi.org/10.1016/j.aquaeng.2018.07.003>
Reference: AQUE 1951

To appear in: *Aquacultural Engineering*

Received date: 20-4-2018
Revised date: 29-6-2018
Accepted date: 28-7-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Nutrient Mineralization and Organic Matter Reduction

Performance of RAS-based Sludge in Sequential UASB-EGSB

Reactors
