Title: Genome-wide scan reveals signatures of selection related to pollution adaptation in non-model estuarine Atlantic killifish (*Fundulus heteroclitus*)

Authors: J.S. Osterberg, K.M. Cammen, T.F. Schultz, B.W. Clark, R.T. Di Giulio

PII: S0166-445X(18)30130-9
DOI: <https://doi.org/10.1016/j.aquatox.2018.04.017>
Reference: AQTOX 4925

To appear in: *Aquatic Toxicology*

Received date: 12-2-2018
Revised date: 21-4-2018
Accepted date: 24-4-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Genome-wide scan reveals signatures of selection related to pollution adaptation in non-model estuarine Atlantic killifish (*Fundulus heteroclitus*)

Authors:
