This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

From a highly polluted  
estuary in 20<sup>th</sup> century ...

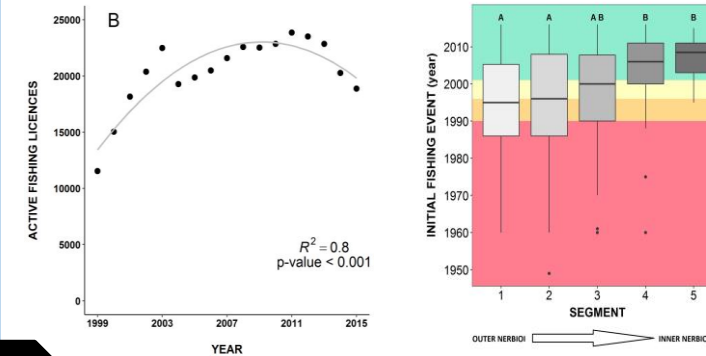

... to a nearly ecologically-  
recovered ecosystem in  
21<sup>st</sup> century

Restoration measures  
(WWTP)

Human benefits  
(recreational fishing)

**Behaviour:** More fishers, progressively  
moving to previously highly polluted areas

**Perceptions:**

Element	Reality	Perception	Agreement
Water quality	+	+	✓
Fish abundance	+	—	✗
Fish richness	+	==	✗
Fish size	+	==	✗
Nº fishers	+	+	✓
