Performance of fish-habitat classifiers based on derived predictors from a coupled biophysical model

Edward D. Weber, Yi Chao, Fei Chai

PII: S0924-7963(18)30014-9
DOI: [doi:10.1016/j.jmarsys.2018.06.012](https://doi.org/10.1016/j.jmarsys.2018.06.012)
Reference: MARSYS 3098
To appear in: *Journal of Marine Systems*
Received date: 19 January 2018
Revised date: 6 June 2018
Accepted date: 20 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Performance of Fish-Habitat Classifiers Based On
Derived Predictors from a Coupled Biophysical Model**
